

Media Release Embargoed until 11:00am AEST, Thursday 11 April 2019

Melbourne Institute Survey of Consumer Inflationary Expectations

Inflationary expectations lower in April

The expected inflation rate (30-per-cent trimmed mean measure), reported in the Melbourne Institute Survey of Consumer Inflationary Expectations, decreased by 0.2 percentage points in April to 3.9 per cent.

In April, the weighted proportion of respondents (excluding the 'don't know' category) expecting the inflation rate to fall within the 0-5 per cent range increased by 2.2 percentage points to 66.1 per cent. The weighted mean of responses within this range fell by 0.1 percentage points to 2.3 per cent.

The May 2019 Survey of Consumer Inflationary Expectations will be released at 11am AEST, Thursday, 16 May 2019.

ENDS

The Melbourne Institute Survey of Consumer Inflationary Expectations measures are designed to represent the average householder's expected rate of consumer price changes over the coming 12 months. Further information can be found in the attached report or by visiting: www.melbourneinstitute.com/miaesr/publications/indicators/cie.html
