INTERVIEWER NOTE: If respondent does not understand, repeat the instructions.

The sets will get larger as we go.

UNLESS INAPPROPRIATE, ALSO SAY: To help you concentrate, it may help if you close your eyes.

If participant immediately self-corrects, do not count as an error.

If the participant asks for repetition, say: ‘I’m sorry, I can’t repeat items.’

[IF face-to-face interview: If participant attempts to write the numbers down as they are being read out, immediately cease reading out the numbers and politely inform the participant that for this task we need them to rely on their memory. Record an “incorrect” answer and move to the next sequence.]

**N12. INTERVIEWER, HAVE SYMBOLS BOOKLET TO HAND TO RESPONDENT.**

STOP THE EXERCISE AFTER 90 SECONDS.

This next exercise involves matching numbers to symbols.

(HAND SELF COMPLETE SYMBOLS BOOKLET TO PARTICIPANT)

INTERVIEWER, PLEASE ENSURE THE BELOW INFORMATION IS RECORDED ON THE SYMBOLS BOOKLET, PRIOR TO IT BEING HANDED OVER TO THE RESPONDENT.

<table>
<thead>
<tr>
<th>HOUSEHOLD ID</th>
<th>PERSON NO</th>
<th>NAME</th>
</tr>
</thead>
<tbody>
<tr>
<td>[HHID]</td>
<td>[PID]</td>
<td>[Respondent [first name only]]</td>
</tr>
</tbody>
</table>

Please look at the key at the top of the page. The symbol in the top row matches the number in the box below it.

Now look at the next line of boxes (INTERVIEWER POINT TO THE LINE OF BOXES). Notice that the boxes below the symbols are empty. Your task is to fill each empty box with the number that matches the symbol using the key at the top of the page. Is that clear?

INTERVIEWER NOTE: (If respondent requires further instructions say): Please look again at the key on top of the page, each of these symbols in the top row has a matching number. Your task is to fill in the blank boxes underneath each symbol (point) using the key at the top of the page to match the number? Is this clear?

Let’s have a go at the first symbol. Looking at the key, you will see that number 1 goes in the first box, so write the number 1 in the first box. Now what number should you put in the second box? (Number 5) That’s right. So write the number 5 in the second box. What number goes in the third box? (Number 2) Two, right.

For practice, fill in the remaining boxes and stop at the double line.

[INTERVIEWER CHECK PRACTICE BOXES AGAINST CORRECT RESPONSES BELOW. ANY ERRORS MADE IN THESE PRACTICE RESPONSES SHOULD BE IMMEDIATELY POINTED OUT. IF NEEDED, YOU WILL NEED TO EXPLAIN THE TASK AGAIN.]

Now when I say ‘Go!’ write the numbers just like you have been doing until I say ‘Stop!’, starting from here (INTERVIEWER POINT TO THE FIRST BOX AFTER THE DOUBLE LINE). When you come to the end of the first line, go quickly to the next line without stopping. If you make a mistake, just write the correct answer over your mistake. Don’t skip any boxes and work as quickly as you can.
