Dear Dr. <merge surname>

MABEL 2012
Medicine in Australia: Balancing Employment and Life

Thank you for participating in the MABEL survey. Around 10,500 doctors participated in each of the first four Waves (from 2008 to 2011).

I am now inviting you to participate in Wave 5 (2012). A unique and powerful feature of the survey is its longitudinal design, so your continuing participation is vital to ensuring the ongoing quality and robustness of our analyses of enduring workforce policy issues. For further information about MABEL, please see the attached information sheet or visit our website www.mabel.org.au.

There are two ways to complete the survey:

- 1) Fill out the enclosed hardcopy survey and return it to the Melbourne Institute in the enclosed, postage-paid envelope, OR
- 2) Complete the survey online by logging in through our secure website www.mabel.org.au using the username and password below, **selecting** the survey relevant to your doctor status (including if different from the doctor-type we sent you) and following the simple instructions.

Username: <merge username> **Password:** <merge password>

If you have recently changed your professional status (e.g. you are no longer in training but are now a specialist), we may have sent you the wrong version of the questionnaire. If this is the case and you wish to do a paper version of the survey, please fax back the enclosed form and we will post the correct questionnaire to you, or contact our survey manager Anne Leahy by email (enquiries@mabel.org.au) or phone (03 8344 2600), **quoting your username id**.

If you have any queries please feel free to contact our survey manager.

I sincerely hope you will continue to participate in this major study by completing the MABEL survey. The research team looks forward to receiving your response. Thank you in anticipation. You can now follow us on LinkedIn, Twitter or Facebook to keep you in touch with results.

Yours sincerely

Professor Anthony Scott
Melbourne Institute of Applied Economic and Social Research
