INTERVIEWER NOTE: According to the Household Form information supplied earlier, there ARE children less than 15 years of age living in the household ("childreninhousehold.name").

If the children have left the household since the Household Structure date ("HHstructureDate"), please ask HQ Section Q in the context of the time when the children were still living here. Do not include any children who may have joined the household since that date.

You will now be returned to Q1.

Go to Q1

Q2. We begin with some questions about any child care arrangements your household may have, and the costs involved. Are you able to answer these sorts of questions or should we speak to someone else?

INTERVIEWER NOTE: If the person you are interviewing cannot provide the required details about childcare, select ‘No’. You will skip to R1 and leave this part of the form until you can interview the person needed.

☐ Yes, is able to answer childcare questions [1]

INTERVIEWER NOTE: For each type of child care used, add together the weekly amount paid for each child. If care is free, record “0”.

If a school-aged child is in the same type of care as a child who is not yet at school, the total cost should be distributed between them. For example, if a respondent pays $40 to a sitter to mind a 3 y.o. and a 10 y.o. for 2 hours, the cost should be split among the children.

Q16c. What is the usual **weekly cost** of this type of care for ["ChildrenNotAtSchool.names"] after any regular child care benefit you may receive has been deducted?

**INTERVIEWER NOTE:** For each type of child care used, add together the weekly amount paid for each child. If care is free, record “0”.

If a school-aged child is in the same type of care as a child who is not yet at school, the total cost should be distributed between them. For example, if a respondent pays $40 to a sitter to mind a 3 y.o. and a 10 y.o. for 2 hours, the cost should be split among the children.
