INTRODUCTION TO BE READ OUT:
The following set of questions is part of an international survey program coordinated by the United Nations.
Their aim is to study what influences the decision to have or not have children. This is important given the low birth rates experienced in many countries in recent decades (including Australia), and the consequences this can have for almost every aspect of our society and economy.
Your participation is voluntary, but it is very important because you represent many other people. If at any point in this section there are any questions you do not wish to answer for any reason you can ask me to skip them.
(READ OUT IF OTHERS ARE PRESENT: This part of the interview contains some very personal questions and it would be better if we could complete it without any one else being present.)

T7a There is also a self-completion questionnaire we would like you to fill in. This contains some additional questions that you might find easier to answer by yourself. You can complete this in your own time and I will come back and collect it on another day.

Give pen (i.e. the 'gift') to respondent and recommend that they use it when completing the questionnaire.

Point out instructions on the front of SCQ and emphasise that if they make a mistake it's important that they black-out the box completely.

T7b ON THE FRONT OF THE SCQ RECORD THE HOUSEHOLD ID (5 DIGITS) AND THE RESPONDENT'S PERSON ID (2 DIGITS). WRITE THE RESPONDENT'S FIRST NAME IN THE SPACE PROVIDED.
